## SKILL BUILDER CLASSES

These classes are for those new to project management or those who require the necessary education hours to take the PMI CAPM or PMP exams.

### PROJECT MANAGEMENT FUNDAMENTALS (23 HOURS)

Project management opportunities are around us all the time and in all market sectors. On the surface they may not seem like projects but if you look at what makes up the definition of a project you will see that there are always a lot of projects going on at the same time. Complex assignments require a clear objective, good communication, thoughtful planning, and responsible leadership. This training offers tactics to manage resources and time effectively, keep the budget under control, and provides methods for trouble shooting to solve common problems.

#### Weekly half hour conference call included

**When:** October 5 - November 19, 2019    **Duration:** Six weeks

### AGILE PROJECT MANAGEMENT (16 HOURS)

Today organizations are scrambling to become lean and agile for meeting changing customer needs and expectations, and for efficiently producing high-quality products, services, and solutions. This need to be nimble and cost-effective is intensified further by growing global competition, continuous innovation in technology, and by incredibly short time-to-market requirements. Like any change, the transition to agile is hard and requires not only organizational and personal commitment but also people with knowledge and experience in agile methodologies.

A weekly half hour coaching session is offered to all class participants in the form of a conference call.

**When:** November 10 - December 7, 2019    **Duration:** Four weeks

*\*This Certificate of Completion for BOTH the Fundamentals and Agile classes meets the PMI number of hours of formal education requirement to sit for the Certified Associate in Project Management (CAPM) or Project Management Professional (PMP) certification exam. (CAPM – 23 hours; PMP – 35 hours)*

## PROJECT MANAGEMENT CERTIFICATION PREP BOOT CAMPS
